

u-sonic 3

Rechargeable mini ultrasonic cleaner.

DEEP CLEANSING AND GERM-FREE HYGIENE

For earmolds and hearing protection, germ-free, deep cleansing is important for daily use, personal hygiene and value retention.

The new u-sonic 3 is a valuable helper and offers optimal cleaning. Powerful ultrasound at 42 kHz ensures hygienic cleanliness even with clear water. For intensive cleaning, the addition of a small amount of cleaning concentrate is recommended.

The new u-sonic 3 is particularly suitable for use in hearing care and dental technology for professionals and customers. In addition, it can be used in the household for small parts such as jewelry, coins, razors, infant teats, nipples and much more.

THE NEW U-SONIC 3 IS A GOOD CHOICE

Thanks to 360° all-round cleansing, the products to be cleaned are perfectly cared for, their service life is increased, and the risk of failure and repair costs are significantly reduced.

With the sensor button you can select the short program 4 minutes or the intensive program 8 minutes - everything else runs fully automatically controlled by the processor.

The lithium battery allows mobile operation. The new u-sonic 3 offers great benefits. Effective and gentle cleaning and care is the best guarantee for value retention and the long usability of the products.

The new u-sonic 3 is a medical device and meets the high requirements for medical devices (Class I) of the Medical Devices Regulation (EU) 2017/745.

Perfect cleansing by 360° ultrasound

42 kHz frequency at 20 watt

Easy handling by simple touch on sensor button

67x67x39 mm 2.64x2.64x1.54" stainless steel tub

Rechargeable by USB-C standard

USB Type-C® input for recharge

Environment-friendly packaging

All features controlled by microprocessor

Highest product quality with 2 year warranty

Energy-efficient, gentle and absolutely safe

SENSOR BUTTON

Touch the sensor button 1x and the short program 4 minutes is activated, touch 2x and the intensive program 8 minutes and the u-sonic 3 starts ultrasonic cleansing. This innovative technology is simple, automatic, waterproof and provides more comfort.

125 ML STAINLESS STEEL TUB

The high-quality stainless steel tub with inner dimensions of 67 x 67 x 39mm (2.64 x 2.64 x 1.54") offers optimal space for thorough deep cleansing. A cleaning basket ensures gentle, scratch-free storage of the cleaning material. For optimal cleaning and hygiene of earmolds, hearing protection, earplugs. But also for cleaning dentures and jewelry and small parts.

360° ULTRASOUND

The u-sonic 3 achieves effective deep cleansing through a powerful piezo generator with ultrasonic vibrations of 42,000 hertz in the stainless steel tub. The result is 360° all-around cleaning by thousands of active oxygen bubbles. During sonic-ultrasonic cleansing, cavitation creates tiny vapor bubbles with enormous pressure fluctuations that detach even the most stubbornly adhering dirt.

LITHIUM BATTERY

Once the u-sonic 3 universal with USB Type-C® cable is charged, the ultrasonic cleaner works mobile for about 30 minutes. The built-in 5,000 mAh lithium battery has power for about 7 short cleanings or 3 intensive cleanings. Thanks to innovative battery technology, you are mobile and independent of the power supply.

MOBILE - SAFE - GREEN

The new packaging of the u-sonic 3 in a minimalist design is not only nice to look at and a real highlight on the sales shelf and in the shop window, but made of cardboard 100% recyclable and environmentally friendly.
