

Technical Data Sheet

Product description:	Adhesive coating used to bond acrylic pieces or PV resins with silicone materials.	
Manufacturer:	Dreve Otoplastik GmbH Max-Planck-Straße 31 59423 Unna / Germany	
Chemical term:	acrylic-silicone-copolymerisate as diluent in phenylmethane	
Physical characteristics:		
Color:	clear	
Form:	fluid	
Density:	0.95 g/cm ³	at 25 °C
Solid content:	about 38 %	
Flash point:	+ 8 °C	(according to DIN 51755)
Ignition temperature:	> 500 °C	(according to DIN 51794)
Ventilation time:	about 1 hour at room temperature
